

As Minnesotans we are fortunate to be surrounded by some of the purest elements on the planet. The 21 organizations supported by the fund are working to keep things that way for future generations.

The Minnesota Environmental Fund (MEF) is a state-wide network of respected and responsible non-profit environmental and conservation organizations, working together to protect, conserve and restore Minnesota's environment through employee giving. To learn more, call 651-917-1876 or visit www.mnenvirofund.org. Don't forget to sign up for our monthly electronic newsletter!

MEF member groups are working every day to

Protect

- Minnesota's clean air and water by developing renewable energy resources and preventing waste.
- People, by helping to reduce mercury levels in fish.
- Public natural areas by fostering responsible use of trails and roadways.
- Soil and water with conservation farming practices.
- By informing and engaging community residents in public policy issues that affect their lives.

Conserve

- Natural areas on the urban fringe, with development planning that addresses short and long-term ecological concerns.
- Important natural habitat for birds and other wildlife.
- Valuable open space for future generations to enjoy.
- And expand consumer access to locally grown organic and sustainable food products.

Restore

- Lakes and streams for safe swimming and fishing.
- Native prairie in roadside plantings.
- Water quality through buffer zones, greenways and plantings along streams and waterways.
- Parks and native landscapes along the Mississippi River by removing buckthorn and other invasive species.
